## Course Overview

This seminar focuses on teaching you how to use software tools that will help simplify product selection of Rockwell mechanical products. There will also be lab demos available to allow you to practice writing your own motion control program using Studio 5000 Logix Designer and Kinetix Servo Drives.

**Time:** 9:00am-3:00pm (lunch break from 12:00pm-1:00pm)

**Where:** Zoom Webinar

**Cost:** \$30.00

**Register:** [training@buckles-smith.com](mailto:training@buckles-smith.com)

or contact your Buckles-Smith Representative

## Agenda:

Motion Control Portfolio

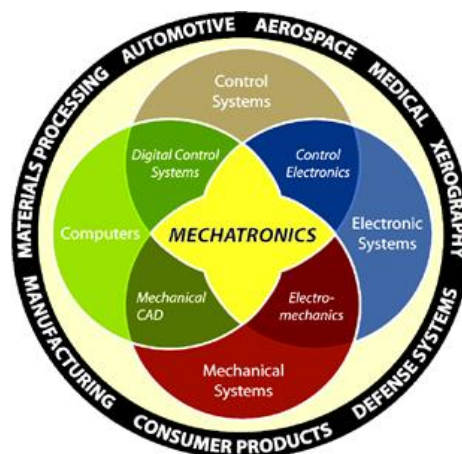

Motion Analyzer Labs

Integrated Motion on Ethernet/IP Lab

Configuring a Motion System Labs

Program a Motion System Labs

Troubleshoot a Motion System Labs
